HTML	Agile	Mac/PC OS

[About]

Strengthsfinder: Adaptability, Ideation, Input, Futuristic, Connectedness

Strong at concept generation, performs well under pressure, details matter to me, avid learner and sharer.

I'm looking for a role where I can blend my web development skills, design training, and my core strengths into a true career path of learning and working with a great team to engineer amazing things.

[Qualities]

Diligent and able to work under pressure.

Meticulous and detailed oriented.

Always learning new things in and outside of programming and design.

Outgoing, passionate and honest.

[Interests]

Computers, programming and games.

Art, design, and photography.

Creating, performing and listening to music.
